

GRANT APPLICATION ASSESSMENT & PREPARATION SERVICES

You have the project idea, made all the necessary contacts with partners and suppliers and now you are ready to submit your renewable energy project for financing under a grant programme, like ElectriFY or similar.

However, preparing a grant project application can take time a lot of time and human resource efforts that may not be available to a company with other ongoing project commitments running at the same time. Or maybe, this is the first time you are applying for a grant under a particular programme and you are not sure about the requirements. Or maybe you just want a specialised opinion to ensure that your project is eligible and has all the necessary elements to be awarded a grant.

This is where Revelle Group comes in and can help you in all stages of your renewable energy project both in the grant application preparation and in the post contract award. We are launching our new services in time for the opening of calls for proposals under ElectriFY but also for any other grant programmes for RES projects.

For the grant application preparation services, Revelle can provide:

Assessment and evaluation services

Revelle can assess and evaluate all elements of your grant application for compliance to grant programme requirements and assessing the merits and feasibility of your technical, financial and business plans proposals. We offer two service packages that can be obtained separately or in combination.

PACKAGE

Administrative Compliance Check

Thorough check of the administrative section of your grant application to make sure it's compliant with all requirements. We will carefully review the administrative documents provided by your company and all your partners. You will also have access to a free one hour online training course for you staff on how to prepare administrative documents for grant applications.

PACKAGE

Technical & Economic Assessment

Revelle can review the technical and economic sections of your application and provide you with an assessment of the merits and feasibility of your grant application as well as recommendation for improvement. Our services include assessments for:

- Technical feasibility study
- Business plan
- Financial analysis including cash flow analysis

Application preparation services

Sometimes a company does not have the time and resources in preparing the full grant application and needs some help.

PACKAGE

Preparation of the application

Revelle can help you in preparing the complete grant application including:

- Preparation of all administrative requirements
- Review of the draft technical feasibility study prepared by you which we will finalise
- Preparation of the business plan
- Preparation of the financial and cash flow sections

Project management services

Grant programmes have rules and requirements for reporting, invoicing and communication and visibility for the programme that is financing your project. Compliance with the programme requirements is a necessity to ensure that you will get paid on time and in full. Revelle can help you to manage your project efficiently so all requirements are met thus ensuring your full and timely payment from the programme.

PACKAGE

Review of technical reports

We will review and assess your technical reports and provide you with a thorough assessment, including comments and recommendations as well as a second review following the incorporation of our comments.

PACKAGE

Review of financial reports

We will review and assess your financial reports including supporting documents to make sure you are compliant with the financial requirements of the project.

PACKAGE

Communication & Corporate Governance Plan

We can prepare your communication and corporate governance plan for the project to ensure the successful visibility of your project and also in meeting the communication requirements of any programme.
