

FINANCING YOUR RENEWABLE ENERGY PROJECT

Investment facilitation services for developers and investors in developing countries

The problem

- Are you looking to find financing for your renewable energy project?
- Are you interested in finding a strategic investor or partner for your project?
- Do you want to sell your project?
- Do you want to make your project “bankable”?

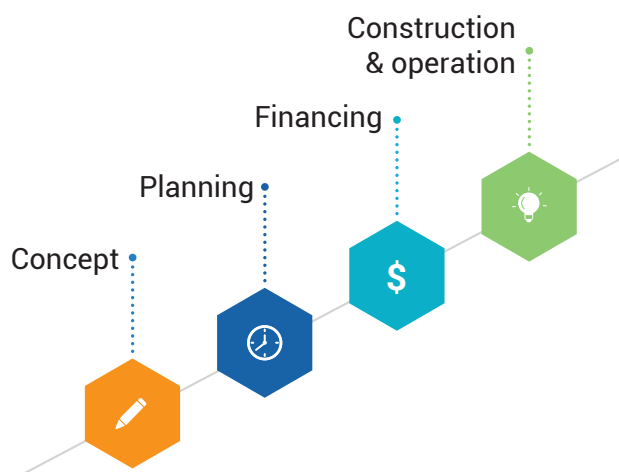

Figure 1: Project value creation

The solution

Revelle can help you find:

- equity investors
- loan project finance
- assess the possibility of grant for early stage development.

With over **20 years experience** in many developing countries around the world, **Revelle Group experts** work with project developers and support them to properly plan their projects, match them with the right project sponsors and attract competitive financing. We support developers from the concept phase of the project and go all the way through to financial closure.

Revelle Group is a consulting company working in developing countries and emerging economies in three key sectors: energy & climate change, environment and sustainable economic & social development.

We advise large institutional clients and donors such as the **European Commission, EBRD, World Bank, UNECE, ADB**, etc.

Our advantage is that we work both with the private sector and the public sector in developing countries to find solutions that work for both sides (e.g. Power purchase agreements, regulatory issues).

Our services to private sector clients allow us to leverage our work with the public sector and promote the necessary legislative changes that support a better investment climate.

How can we work together?

Our cooperation model is simple and clear. It involves five stages starting with the signing of a Memorandum of Understanding (MoU) and following working with you to through to securing project financing.

Figure 2: Overview of Revelle service offering by stage of project development

MoU	<ul style="list-style-type: none">▪ Sign confidentiality agreement▪ Set project exclusivity and other terms of cooperation
Concept	<ul style="list-style-type: none">▪ Review high-level design▪ Suggest improvements on the Pre-feasibility Study
Planning	<ul style="list-style-type: none">▪ Review of all required project permits▪ Identify project sponsors
Financing Syndicate	<ul style="list-style-type: none">▪ Advise on the final Feasibility Study▪ Structure project finance
Financial closure	<ul style="list-style-type: none">▪ Close financing agreement, receive success fee for services
